

Dear Customer,

We are glad to send you Responsa Version 19 Plus on DVD with a sophisticated text retrieval system that is meant to be downloaded on your hard disk and works with a dongle (plug).

This package includes:

Responsa CD Version **19 Plus** Working DVD; Installation instructions; User Warranty
Protection Plug (dongle) that connects to your USB port (for first-time owners only, not updates)

How to install:

Put in the Responsa DVD into the DVD drive.

Open "My Computer"

Double -click on the DVD drive

Double click the file "SETUP.EXE" or

Click on "yes" if you agree to the license agreement

You may now choose between the following options:

1. **Basic** – requires 254 Megabytes on your hard disk
2. **Full** – requires 1934 Megabytes on your hard disk and all of the program's work will be from the hard disk only

The install program will inform you where it is installing the program on your computer, and now you need to press NEXT and afterwards FINISH.

After the install is finished, close all the open windows and attach the plug to the appropriate port.

In order to run the program, click on the "**Responsa CD19 Plus**" icon or that is on your desktop.

In order to view the **User Manual**, Press:

1. Start
2. All Programs
3. ResponsaCD19
4. User Manual

In order to **save Personal Notes** from the previous version:

In the previous version press Tools/Backup and press Export Notes, mark the notes you would like to save and press Select Specified Entries.

In the new version, press Tools/Backup and then press Import Notes.

Important: Please return the form that is found at the bottom of the warranty.

User support will be given using the User number, which must be supplied with each phone call.

We are happy to have you as one of our customers and hope you enjoy our CD.

User number: (& DVD Serial Number
found on the DVD):

Sincerely,
The Responsa Project
