

Dear Customer,

We are glad to send you Responsa Version 19 Plus Disk-On-Key with a sophisticated text retrieval system.

This package includes:

Responsa CD Version **19 Plus** Disk-On-Key
User Warranty

How to install:

Open "My Computer"

Put the Responsa Disk-On-Key into one of the available USB drives (you will see that a virtual DVD drive has been added).

Double-click on the USB drive that has **RESPONSAV19** on it.

Double click the file "SETUP.EXE" or

Click on "yes" if you agree to the license agreement

You may now choose between the following options:

1. **Basic** – requires 254 Megabytes on your hard disk
2. **Full** – requires 1934 Megabytes on your hard disk and all of the program's work will be from the hard disk only

Either way, the Disk-on-Key must be connected to the computer for user identification when using the program.

The install program will inform you where it is installing the program on your computer, and now you need to press NEXT and afterwards FINISH.

After the install is finished, close all the open windows.

In order to run the program, click on the "**Responsa CD19 Plus**" icon or that is on your desktop.

In order to view the **User Manual**, Press:

1. Start
2. All Programs
3. ResponsaCD19
4. User Manual (English or Hebrew)

Important: Please return the form that is found at the bottom of the warranty.

User support will be given using the User number, which must be supplied with each phone call.

We are happy to have you as one of our customers and hope you enjoy our CD.

User number: (Found on the Cover of the
Disk-on-Key Box):

Sincerely,
The Responsa Project
Bar-Ilan University
